Sculpt and Tone Micro-Current Facial Pre-Treatment

Please review and follow our pre-treatment care plan. Failure to do so could result in cancellation of your treatment and forfeiture of your deposit. This service can not be performed on anyone who is pregnant or nursing.

Pre Treatment:

- Discontinue use of skin resurfacing products, Retinols, AHAs, BHAs and Dermabrasion 48 hours prior to treatment
- No neurotoxin injectables (Botox®, Dysport®, Daxxify®) 2 weeks prior to treatment
- No lip filler, facial filler or PRP injectables 4 weeks prior to treatment
- No PDO facial threads 6 weeks prior to treatment
- No laser treatments or peels 2 weeks prior to treatment
- No facial surgery in the last 6 months prior to treatment

This treatment is contraindicated for the following conditions:

- Diabetes with loss of skin sensation
- Skin conditions in the area being treated (active acne, eczema, psoriasis, cold sores, broken skin, sunburn, rosacea, skin cancer or long-term steroid use that has affected the skin)
- Metal plates or pins in the face or neck
- Epilepsy
- Prone to bone fractures or severe osteoporosis
- Heart conditions (due to use of EMS)
