Dermal Filler Dissolving Pre-Treatment

Please review and follow our pre-treatment care plan. Failure to do so could result in cancellation of your treatment and forfeiture of your deposit. This service can not be performed on anyone who is pregnant or nursing.

Pre Treatment: 2 Weeks

- No area to be treated should receive any type of chemical peel for 2 weeks before or after treatment.
- Waxing and/or use of chemical depilatories must be avoided for 2 weeks prior and after treatment.

Contraindications:

- Patients with known hypersensitivity to the enzymes in hyaluronidase.
- If the patient has cutaneous disorders, inflammation, or an infection at or near the treatment site.
- In combination with chemical peels or laser treatments
- Patients with autoimmune diseases
